

## **Kirusa at Qualcomm Ventures CEO Summit at IQ Europe**

*10-11 September 2012 | Berlin*

Qualcomm Ventures is hosting its annual CEO Summit as part of Qualcomm's larger Innovation Qualcomm conference in Berlin, Germany on the 10th & 11th of September 2012. The IQ Berlin conference brings together the leaders in mobile innovation and connects them with some of the world's leading OEM's, carriers, and developers.

The summit, designed to bring together mobile developers and key players in the wireless ecosystem across the globe for the advancement of mobile applications, services and devices, is a showcase for existing and future technologies and facilitates more specific and detailed demos, meetings and discussions.

Kirusa too will be a part of the event as it offers a direct access to the latest in mobile technology, products and services and an insight into the future through demonstrations, technical learning opportunities, and visionary keynotes.

For a meeting with Kirusa, one of world's leading developer of Mobile Social Media and Value Added Services, drop in a mail at [info@kirusa.com](mailto:info@kirusa.com)

Kirusa's solutions include the hugely successful Kirusa Voice SMS service, the world's most advanced Voice SMS solution, used by over 30 carriers around the world. Kirusa has pioneered a suite of social media applications that facilitate mobile subscribers to interact through voice. Kirusa provides an open platform with APIs to enable third parties to offer mobile applications services to mobile subscribers. Used by mobile subscribers tens of millions of times daily, Kirusa solutions are built on its patented and patent pending technology and its highly reliable and scalable open multimodal platforms. Headquartered in New Jersey and led by an experienced team of wireless telecom executives and technologists, Kirusa has offices in three continents. 'Kirusa Voice SMS,' is a trademark of Kirusa, Inc.
